NESS BILLET WHEELS

72

Ness billet wheels are the result of our unrelenting passion for riding and the motivation to continuously lead the industry in innovation. Our wheels combine world class quality, cutting edge style, and precision engineering to provide you with wheels that look as good as they perform. Engineering drives the design of every Arlen Ness wheel. Each design is tested extensively using computer simulated stress analysis and a series of rigorous physical tests to ensure premium performance in any situation. Our wheels are hand assembled and guaranteed to reach you in pristine condition. Every wheel is supplied with hubs, sealed wheel bearings, properly sized bearing spacer, races, seals, and any necessary hardware.

ARLEN NESS

BRAKE ROTORS

ARLEN NESS FLOATING ROTORS

Arlen Ness floating rotors are the ultimate in function and performance. Every detail is tested thoroughly to ensure premium performance and quality. These rotors are constructed of chrome plated or black anodized billet aluminum carrier and a mirror polished 420 stainless steel rotor. Our two-piece design eliminates vibration associated with early one-piece rotors. The 420 stainless rotors are slotted in order to disperse heat incurred during braking. Sold Individually.

WIND PROTECTION

A. FLIP WINDSHIELD FOR CROSS COUNTRY / VISION

- The new FLIP windshield provides superior wind protection while keeping a low sleek profile.
- The windshield is stock height with a "flip" construction that results in wind protection similar to having a windshield 3" taller.
- Constructed of dark tinted Lexan™ Polycarbonate that is Quantum™ coated to provide the absolute industry best in motorcycle windshield strength and durability.
- Made in the USA.
- Available for Cross Country and Vision.

FLIP Windshield for Cross Country

B. NESS LOWER WIND DEFLECTORS FOR CROSS COUNTRY / CROSS ROADS

- These new fork lowers from Arlen Ness easily attach to the front end of your Cross Roads or Cross Country to provide protection from the elements.
- Constructed of a dark smoked 4.5 mm thick Lexan™ Polycarbonate material that is Quantum™ coated which results in the strongest, and most abrasion resistant windshield material available.
- Fork lowers include fork clamps and all necessary hardware needed for fast and easy installation.
- Can be painted to match your bike.
- Available for Cross Country and Cross Roads.

FENDERS

A. FRONT FENDER FOR CROSS COUNTRY & CROSS ROADS

- Our new front fenders for CC and CR feature clean flowing lines and are designed to flow with the rest of the factory bodywork.
- Available for 21" and 23" front wheels.
- Constructed of high strength fiberglass and is delivered in a primed ready to paint finish.
- Both 21" and 23" fenders are pre-drilled for easy installation.

V-1141 21" Cross Country Front fender

V-1252 23" Cross Country Front fender

NOTE: Please check fitment and finish prior to painting. Arlen Ness will not be responsible for any damage sustained to paint jobs.

B. FRONT FENDER FOR VEGAS / JACKPOT

- Ideal for those wanting a wide 21" or 23" front wheel on their Vegas or Jackpot.
- Designed to match factory styling.
- Accepts 21" x 3.50" or 23" x 3.50" front wheels.
- Fiberglass construction finished in a primed ready to paint finish.
- Both 21" and 23" fenders are pre-drilled for easy installation.

V-1150 21" Front Fender

V-1151 23" Front Fender

NOTE: Please check fitment and finish prior to painting. Arlen Ness will not be responsible for any damage sustained to paint jobs.

C. FENDER RELOCATION KIT

- Allows the use of stock fender while using 21" x 3.50" wheels on Vision models.
- Kit components are machined from 6061-T6 billet aluminum for strength and corrosion resistance.
- Designed for 2008-2013 Vision models.
- Kit includes all necessary components and hardware for easy installation.

V-1244 Fender Relocation Kit

EXHAUST

D. NESS THUNDER SLIP-ON MUFFLER KIT

- These mufflers feature Thunder Header baffles with Ness Deep Cut Billet End caps.
- Awesome Thunderheader sound and performance with Ness styling.
- Designed to accept factory heat shields.

ARLEN NESS

FUEL & AIR

A. ARLEN NESS BIG SHOT 2 ADJUSTABLE FUEL TUNER

Improving upon the original Big Shot™ the Big Shot II™ now gives the user the ability to add or subtract fuel from the fuel injection system. Using the same load based technology as the original Big Shot™ the Big Shot II™ always knows how much fuel your bike needs whether you're going uphill, downhill, cruising or even towing a trailer. Even temperature and elevation do not affect the Big Shot II™; essentially only time adjustment is needed is when you modify your engine.

The Big Shot II™ is a plug and play system and does not require the use of a computer or dyno machine to get your bike running great. CARB approved systems are also available for customers living in California.

- Pull up to 10% of fuel out of the system.
- 16 positions of adjustability.
- Adjustable to your riding style. Ability to tell the system how much fuel to add and when.
- 2 year warranty.
- CARB units feature same technology but have limited adjustability to remain within CARB standards.

18-626 2000-2007 Victory models

18-627 2008-2013 Victory models

B. ARLEN NESS CHEAP SHOT FUEL TUNER

The cheap shot is an economical solution to add needed fuel after installing exhaust and air cleaner performance upgrades. Our simple splice-in design saves you big money by eliminating costly plug and play connectors found on most other fuel tuners. The cheap shot adjusts much like a carburetor by adjusting four individual pods using an ordinary screw driver. Our load based technology senses the load on the engine in any riding situation to provide the optimal fuel requirement to the engine. Easy to follow installation instructions are provided.

18-630 2002-2013 Victory models

C. RAM-AIR INTAKE UNIT FOR STEEL FRAME MODELS

- A must when installing any ness exhaust systems on your kingpin.
- Replaces the stock unit and is hidden under the gas tank.
- Creates more airflow than stock filter.
- Fits Cruiser, Hammer, Jackpot, Kingpin and Vegas models.

V-5151 2001-2007 Victory models

V-5153 2008-2013 Victory models

D. TOURING PERFORMANCE FILTERS

- Increases airflow, which in turn increases horsepower and torque.
- Our pre-oiled filters are 100% re-usable and washable.
- The use of both front and top filters are recommended for maximum airflow, fits touring models with aluminum frames.

V-5160 2008-2013 Vision Performance filter kit

V-5161 Top Filter, each

V-5162 Front Filter, each

E. CHROME MOTOR MOUNT FOR VISION

- Adds the final touch to your Vision.
- Matches the chrome engine covers found on most Visions.
- Machined from billet aluminum.
- Chrome plated.

TREE & LOWERING KITS

6 DEGREE RAKED CROSS COUNTRY TREE KIT

- These billet aluminum trees add 6 Degrees of rake to Cross Country and Cross Roads models.
- Hundreds of hours of development went into these trees for the best in handling.
- Trees are designed to be used with 23" or 21" wheels only (Does not work with stock diameter front wheel).
- Our innovative top triple tree allows you to ride at stock height or lower your front end by approximately 1".
- Our kit also includes special travel limiters to allow enough clearance between front fender and triple tree when using a larger diameter 23" front wheel.
- Complete kit includes a top and bottom raked trees, steering stem, travel limiters, fork lowering rings and a new lower fork bearing.
- Available in chrome or black anodized finish.
- Custom 23" or 21" fenders are available separately on pg 90.

V-2810

AUDIO

A. HAWG WIRED STEREO SYSTEM

It's never been easier than this; a high powered amplifier that directly connects to your stock system. Power packing technology has never been so simple. This kit is designed to install seamlessly on your victory motorcycle. This amplifier pumps out 120 watts rms of crystal-clear audio and fits nicely under the seat, and a pair of high performance component speakers that bolt directly in place of factory speakers. Kit comes complete with instructions, cable, mounting bracket, zip ties, and hardware.

- Class-t[®] design makes efficient power with low heat.
- Clean power without taxing the charging system.
- Direct connect harness for plug & play simplified installation.
- Built-in crossovers for maximum loudspeaker performance.
- Conformal coated for corrosion and water protection.
- 1 Year warranty.

V-1260
